

# RAINBOW BOTTLE SHAKER

## Baby Sensory Bottles

### INTRODUCTION

Babies will enjoy the sights and sounds of this fun, eco-friendly activity.

### WHAT WE NEED

- Small plastic juice bottle
- Tape or glue
- Bright and shiny bits & piece (e.g. tinfoil, sweetie wrappers, glitter, sequins, wool, ribbon, beads, buttons, small shells, bells, feathers.)

### WHAT TO DO

Make sure the inside of your bottle is dry. Once you have added the items, screw on your bottle lid tightly. For extra security glue and tape the lid onto the bottle.

Tip: Babies of around 9 to 12 months will enjoy placing their own items into the bottles themselves.
