

DRESSING UP

Creativity & Imagination

INTRODUCTION

A really fun activity that the whole family can join in with! Along with developing creativity and imagination, it helps children practice self-dressing skills. You might be surprised how many versatile items you already have waiting to be discovered

WHAT WE NEED

- Hats, scarves, old spectacles, sunglasses, make up, jewellery.
- Pillow cases, curtains, blankets, throws, pieces of fabric, table cloth.
- Bags, belts, shoes, boots, old clothes.
- A mirror, old picture frame, camera.

WHAT TO DO

Gather your props and place them in a box. Clear a space and set up the mirror and frame. Now all you need is a little imagination and a sense of humour! Choose your items and create your own character. For a photo booth, stand behind the picture frame, strike a pose and have fun making memories with a camera.
