

BATH TIME PLAY

D.I.Y Home Activities

INTRODUCTION

Fun, low cost activities that can be enjoyed at bath time or in a basin for some fun water play

WHAT WE NEED

- A sponge
- A scrunchie
- Yogurt Pots
- A straw
- An empty plastic bottle
- Plastic cups
- An face cloth
- A basin

WHAT TO DO

Pierce some holes in the bottom of the bottle to make a homemade watering can.

Provide plastic cups and yogurt pots for pouring water – they also make great boats.

A straw is a great way to help create bubbles.

Sponges and scrunchies allow your child to experience different textures and can be used to fill the cups.

Tip: Try having a race with the yogurt pot boats by blowing them along
