

# TRANSIENT ART

## Creativity & Expression

### INTRODUCTION

In this activity the carpet becomes the canvas! Your painting palette is made from different items collected from around the home which are arranged to make a picture or collage. You can work individually or collaboratively and in any size you choose.

### WHAT WE NEED

Fabric, soft furnishings and objects in different colours and textures. Choose shades and textures according to the picture you are making. Here are some ideas, cushions, throws, sheets, rugs, curtains, clothing, shawls, towels, mats, netting, natural objects, kitchen utensils, place mats, table cloths, toys, blocks etc.

### WHAT TO DO

Decide on your idea, collect your items and clear a space on the floor. It might help to place a piece of fabric down first to frame your art work i.e. a shawl or throw. Transient art is non-permanent and the process is constantly evolving as you manipulate and experiment with the resources. Once you are happy with your composition take some photographs to record your art work.
