

MELTED CRAYONS

Recycling Craft

INTRODUCTION

A perfect way to use up all the loose ends and broken bits of your crayons.

WHAT WE NEED

- Broken crayons
- Silicone moulds or cake cases on a baking tray
- Oven

WHAT TO DO

Peel off all the paper from the crayons and break them up into smaller pieces. Scatter the pieces into different shape moulds and put them into the oven at 230 degrees for 15 minutes.

Let them cool down for about 30 minutes (preferably in the fridge or outside). Once cool pop them out of the moulds to reveal their new multi-coloured shape.

Have fun colouring in!
