

THE IMAGINATION GAME

Creativity & Imagination

INTRODUCTION

Children have the most active imaginations. In this game the child uses prompts such as characters, objects, places and actions to create a story and act it out. It's a lot of fun and the possibilities are endless.

WHAT WE NEED

- Something to write/draw on like paper or card
- Something to write/draw with
- Your imagination

WHAT TO DO

Write down or draw various characters, objects, places and actions on pieces of paper or card.

Spread out the cards and take turns choosing one of each category.

Think of a short story that uses all your chosen cards and act it out. To mix it up you can place the cards face down and choose them at random.
