

SECRET OF WATER RISING

Easy-to-do Activities

INTRODUCTION

A play activity than is typically enjoyed by older children, adult supervision is necessary for this activity.

WHAT WE NEED

- A long candle
- Plate
- Glass or a small vase
- Water
- Food colouring
- Lighter or matches

WHAT TO DO

Add food colouring to the water and stir. Then, pour the water onto the plate and place the candle in the centre of the plate. The adult present should then light the candle and proceed to place the glass over the candle. Then, watch what happens!

Tip: You can also try this with different sizes of glasses or with different colours in the water.
