

Water Art

Colourful Water Play

INTRODUCTION

Have a splashing good time creating bubbles and patterns with water, indoors and out.

WHAT WE NEED

- Food colouring
- Washing up liquid
- A straw
- Paper plates

WHAT TO DO

Rainbow Bubbles: Put a few drops of food colouring into different puddles of water. Add a squirt or two of washing up liquid and blow through the straw to see the colourful bubbles appear.

Rain Art: Take a paper plate and sprinkle a few drops of different colours of food colouring on it. As the rain hits the plate swirls of colour form.
