

Musical Instruments

Kazoo and Tambourine

INTRODUCTION

Make your own music with these homemade musical instruments.

WHAT WE NEED

- Cardboard tubes, waxed paper, scissors, elastic bands
- Crayons/felt tip pens, glue, coloured paper, stickers
- 2 paper plates, some dried peas/rice/lentils, PVA glue
- Scrap paper, crepe paper

WHAT TO DO

Kazoo: decorate your tube in any way you like. Cut a square of waxed paper to fit over the end of the tube, securing with an elastic band. To play gently hum into the open end of the kazoo!

Tambourine: Decorate plates in any way you like. Glue around the edges of the plates leaving a small gap and place them together. Put some sound making items inside then glue the gap. Decorate the plate by gluing on scraps of paper and adding crepe paper streamers to the edges.
