

Crayon Rubbings

Texture Exploration through Art

INTRODUCTION

In this activity young children can explore a variety of different textures using paper and coloured crayons.

WHAT WE NEED

- Paper
- Coloured crayons
- Various different textured objects

WHAT TO DO

- Peel the paper off the crayons you are going to use
- Set a sheet of paper on the surface of an object with an interesting texture
- Laying the crayon flat, rub the crayon over the paper to reveal a print of the texture underneath
- You can tape the corners of the paper down to stop it slipping
