

Sponge Splat Painting

Unique Art with a Fun Twist

INTRODUCTION

Mixing art and play to create a unique and fun masterpiece.

WHAT WE NEED

- A large piece of paper
- Sponges
- Paints
- Elastic bands/string

WHAT TO DO

Cut the sponge into long strips, once you have a few tie them in the middle with the elastic band or string to make a ball effect.

Cellotape the paper to a surface such as a fence, wall or the floor to prevent the paper sliding away. Then pour different colour paint into trays.

Dip the sponge balls into the paint, take aim and throw them at the paper.
