

BABY RAINBOW BOTTLE

Recycling bottles for fun!

INTRODUCTION

A fun, eco-friendly activity to be enjoyed by children.

WHAT WE NEED

- Small plastic juice bottle
- Selotape or electric tape
- Bright and shiny bits & piece (E.g. tinfoil, sweetie wrappers, glitter, sequins, wool, ribbon, beads, buttons, small shells, bells, feathers.)

WHAT TO DO

Make sure the inside of your bottle is dry. Once you have added the items, screw on your bottle lid tightly. For extra security glue and tape the lid onto the bottle.

Tip: Babies of around 9 to 12 months will enjoy placing their own items into the bottles themselves.
