

# BATH TIME PLAY

## D.I.Y Home Activities

### INTRODUCTION

A fun, easy play activity to do with your child at home.

### WHAT WE NEED

- A sponge
- An empty plastic bottle
- A scrunchie
- Plastic cups
- A straw
- Yogurt Pots
- An face cloth

### WHAT TO DO

Pierce some holes in the bottom of the bottle, this will create a homemade watering can. Provide plastic cups and yogurt pots for pouring water – they also make great boats. A straw is a great way to help your child create bubbles in the bath. Sponges and scrunchies are great for playing in the bath. They allow your child to experience different textures. They could also use them to fill out the cups.

Tip: Try having a race with the yogurt pot boats by blowing them along with the straw.
